SASKIA'S CELLAR

## SASKIA'S CELLAR

Saskia van Uylenburgh was more than Rembrandt's wife. She was his muse, his confidante, and his connection to a world of culture and influence that shaped his life and work. Her presence can be felt in some of his most intimate portraits — not just as a subject, but as a silent force behind the canvas.

With Saskia as our inspiration, we've curated a wine list that honours women whose hands, minds, and names are behind exceptional wines. Winemakers, enologists, and estate owners — women who, like Saskia, may not always stand at the centre, but without whom the picture is incomplete.

Throughout this list, you'll find their names at the end of each wine's description — an acknowledgement, not a flourish. Where no name appears, it simply means no woman has played a direct role in the wine's creation.

This is not a gesture. It's an invitation to explore a world where subtle influence often defines the lasting note.

We trust you'll taste the difference in every glass.
